📍 Riyadh, Saudi Arabia • 🇵🇰 Pakistani • 📄 Transferable Iqama • ⌚ Immediate Availability

PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with **4+ years of experience** — including **active KSA experience** — transforming complex, high-volume datasets into actionable insights, automated dashboards, and KPI-driven reporting across **operations, finance, and commercial** domains. Expert in **Power BI (Advanced DAX, Power Query, Data Modeling)**, **SQL**, **Python**, and **Advanced Excel**, with a proven track record of reducing reporting time by **40%**, achieving **99% data accuracy**, and driving operational efficiency improvements through intelligent automation. Skilled in **data cleaning**, **ETL pipeline support**, **statistical analysis**, **variance analysis**, and **cross-functional stakeholder communication**. Comfortable translating business requirements into clear, actionable reporting solutions for both technical and non-technical audiences. Fully aligned with **Saudi Vision 2030** digital transformation goals. Holds a **Transferable Iqama** — available for immediate joining.

CORE TECHNICAL COMPETENCIES

Data Analysis & Insights · Exploratory Data Analysis (EDA) · Trend & Pattern Analysis · Statistical Analysis · Cohort Analysis · RFM Segmentation · Variance Analysis · Root Cause Analysis · KPI Definition & Tracking · Forecasting

Data Visualization & BI · Power BI (Advanced DAX, Power Query, Data Modeling, RLS, Deployment Pipelines, Power BI Service & Gateway) · Tableau · Interactive Dashboard Design · Data Storytelling · Executive Reporting · Self-Service BI

SQL & Data Engineering · SQL Server (T-SQL, Stored Procedures, Views, Joins, Indexing, SSMS) · PostgreSQL · MySQL · ETL / ELT Pipeline Support · Data Warehousing (Bronze/Silver/Gold) · Star & Snowflake Schema

Programming & Automation · Python (Pandas, NumPy, Matplotlib, Seaborn, scikit-learn) · Advanced Excel (Power Query, Power Pivot, VBA, Macros, XLOOKUP, PivotTables, Complex Formulas) · Power Automate · Git

Data Quality & Governance · Data Cleansing & Transformation · Data Validation & Accuracy Checks · Data Consistency & Completeness · Data Governance Frameworks · Audit-Ready Reporting · SDAIA / NDMO Awareness

Business & Collaboration · Business Requirements Translation · Stakeholder Management · Cross-functional Collaboration (Finance, Operations, Sales, IT) · Requirements Gathering · Agile / Scrum · JIRA · Reporting Automation

PROFESSIONAL EXPERIENCE

Operations Reporting Officer

2026 – Present

Hama Istifaa — Debt Collection 📍 Riyadh, Saudi Arabia

- Own **daily operational reporting** for customer debt-collection portfolios — ensuring accurate, timely, and decision-ready data for management review.
- Clean, validate, standardize, and organize **customer datasets** before system upload — resolving data-quality exceptions and maintaining consistent master records at **99% accuracy**.
- Monitor **collections, recovery activity, payments, and productivity KPIs** through daily and monthly **MIS reporting** for senior management review.
- Reconcile payment uploads and investigate **variances, duplicates, and workflow exceptions** to protect reporting integrity across all portfolios.

Data & Reporting Analyst

Feb 2025 – Apr 2026

Samaya Group 📍 Riyadh, Saudi Arabia

- Analyzed **operational datasets** across multiple business domains — identifying trends, patterns, and insights that directly informed management and operational decision-making.
- Designed and maintained **Power BI dashboards and automated MIS reports** — reducing manual reporting time by **40%** and enabling real-time KPI visibility.
- Translated **business requirements into data-driven solutions** — collaborating with Operations, Finance, and Management to define KPIs and reporting frameworks.

- Performed **data cleansing, validation, and transformation** across multiple sources — maintaining **99% data accuracy** and completeness for all reporting layers.

Data & Business Analyst
Hoop Interactive 📍 Wyoming, USA (Remote)

Jan 2024 – Feb 2025

- Processed and analyzed **500K+ records** using Python and SQL — performing EDA and statistical analysis that improved workflow efficiency by **25%**.
- Built **10+ Power BI dashboards** with Advanced DAX and automated ETL pipelines — delivering actionable insights to C-suite stakeholders.
- Automated reporting workflows using **Power Query and VBA macros** — saving **15+ manual hours per month**.

Data Analyst
IR Solutions 📍 Islamabad, Pakistan

Jul 2022 – Dec 2023

- Developed **interactive Power BI and Tableau dashboards** for Finance and Operations — enabling real-time KPI visibility and performance management.
- Optimized **SQL stored procedures and data pipelines**, cutting report generation latency by **50%**.
- Managed **data quality and governance** for **200K+ records** — ensuring audit-ready, compliance-grade reporting.

KEY PROJECTS

Operational Performance & KPI Reporting Dashboard *[Power BI · SQL · Python]*

Built a **cross-departmental Power BI dashboard** tracking KPIs, quality metrics, and performance trends with automated refresh — replacing manual Excel reporting and delivering real-time visibility for senior stakeholders.

Enterprise Data Warehouse — Bronze / Silver / Gold *[ETL · SQL · Databricks]*

Designed a scalable **multi-layer medallion data warehouse** with automated ETL ingestion and dimensional modeling — providing a single source of truth for enterprise analytics and reporting.

Global Market Performance Dashboard — Airbnb Analytics *[Power BI · SQL · Excel]*

Analyzed **280K+ listings** across 10 cities; uncovered that **4 cities hold 67% of global market share** — insights adopted into strategic pricing and expansion decisions.

EDUCATION

Bachelor of Science — Computer Science
University of Engineering and Technology (UET) 📍 Peshawar, Pakistan
